CCI's experienced and trained team of over 70 professionals located in our Los Angeles, St. Louis and New York offices consist of fire protection engineers, architects, civil/mechanical/electrical engineers, code officials and members of the fire service. At CCI we value our team members and continuously strive to provide a great culture, career and personal development opportunities.

As a privately held firm, CCI's management team is fully responsible for the strategic direction of the firm and successfully manages growth by maintaining a stable organizational structure, consistent professional product across our offices, and applying objective performance-based compensation.

Role

As a member of the CCI team your responsibilities will include:

- Performing fire protection and life safety tasks related to client consultation and project management on a wide variety of projects.
- Interfacing with other CCI team members, clients and Building/Fire Officials.
- Participating in business development initiatives to expand and develop CCI services.
- Participating in the growth and development of the Los Angeles office, and CCI as a whole.

Qualifications

Ideal candidates will possess the following:

- A degree in fire protection engineering or related engineering discipline.
- Five plus years of experience in the fire protection and life safety consulting field (PE license or FE certification is preferred and experience in the Los Angeles area is highly desirable).
- Knowledge of Building/Fire/NFPA Codes and Standards related to fire protection and life safety.
- Excellent written and verbal communication skills.
- Be motivated by growth opportunities for themselves and CCI.

Compensation

CCI offers an excellent compensation package with an objective performance-based bonus program and benefits (including 401(k) with matching contributions, health, dental, vision, life and disability plans).
