

CODE CONSULTANTS, INC.

FIRE ALARM SYSTEMS DESIGNER – NEW YORK, NY

Company Background

Code Consultants, Inc. (CCI) is a privately held and internationally recognized fire protection engineering and life safety consulting firm. Founded in 1973, CCI has become an industry leader, providing a diverse range of crucial fire protection and life safety consultation and design services including but not limited to:

- building and fire code consulting
- life safety consulting
- hazardous materials analysis
- accessibility consulting
- fire sprinkler design
- fire alarm and mass notification design
- ICT/low voltage design
- fire and egress modeling

As a privately held firm, CCI's management team is fully responsible for the strategic direction of the firm and successfully manages growth by maintaining a stable organizational structure, consistent professional product across our offices, and applying objective performance-based compensation. At CCI we value our team members and continuously strive to provide a great culture, and career and personal development opportunities.

Role

CCI is seeking an experienced Fire Alarm Systems Designer. Experience with ICT/Low Voltage and Mass Notification systems design is a plus. This position is located in our New York, NY office and may involve travel throughout the US.

As a member of the CCI team, responsibilities will include design of Fire Alarm systems; including concept development, coordination with design team and officials, design documents, shop drawing review, construction administration, etc.

Qualifications

The ideal Fire Alarm Systems Designer candidate will have a minimum 7 years of design/consulting experience, related technical and/or engineering degree, a working knowledge of AutoCAD and Revit software, and will possess excellent communication and social skills as necessary for interaction with clients. NICET certification in Fire Alarm systems is a plus.

Candidate will have the ability to solve technical problems utilizing critical thinking, thorough research, and open communication. Candidate will have good organizational and communication skills, be capable of understanding client's needs, prioritizing and coordinating work, and executing quality work.

Candidate must have knowledge of industry standards and codes related to Fire Alarm systems, and should be motivated by growth opportunities for themselves and CCI.

Compensation

CCI offers an excellent compensation package with benefits, including 401(k) with CCI matching contribution, health, dental, vision, life and disability plans.
